

EHSQ Policy

C&F Tooling and its subsidiary C&F Green Energy are large manufacturers of fabricated sheet metal products, large to medium size enclosure systems and renewable energy products and provide global design, development and value add solutions to our customers.

C&F Tooling/C&F Green Energy regards the prevention of pollution, the prevention of injury and ill health and the quality of our products and services as an essential requirement of our operations and as such we will undertake to conduct our business in a manner which will endeavour to protect and preserve the environment in which we operate, the health and safety of our employees and to continuously improve the quality of products and services to our customers.

Guiding Principles:

C & F Tooling/C&F Green Energy is committed to

- Maintenance of our certified EHSQ Management Systems (ISO 14001:2004 Environmental Management System, OHSAS 18001:2007 Occupational Health and Safety Management System and ISO 9001:2008 Quality Management System)
- Identification, evaluation and reduction in all Environmental Health & Safety and Quality (EHSQ) risks within the scope of our business and related activities.
- Continual improvements in the prevention of pollution, the prevention of injury and ill health and in the effectiveness of the quality management system as related to the satisfaction of the needs and expectations of our customers and other interested parties.
- Providing a framework for setting and reviewing EHSQ objectives and targets for the organisation through our Environmental Health & Safety and Quality Management Programmes.
- The continual assessment of the EHSQ management systems in relation to our activities, functions, products and services so as to improve their effectiveness.
- Complying with the relevant regulatory legal requirements and other standards to which our company subscribes.
- Providing the necessary training and continual communication to all personnel in our organisation specifically in relation to their individual health & safety obligations, their role in the prevention of pollution and their role in the quality and performance of all manufactured products.
- Conforming to the requirements of the EICC Code of Conduct and C&F Group Code of Conduct & Ethics Policy.
- Reviewing this EHSQ policy periodically to ensure that it remains relevant and appropriate to our organisation.
- The provision and availability of this policy to the Public and other interested parties as required.
